"Births and Deaths."

That is the simple sign hanging over a window in Henry Sief's office in the health department at Normal Hill Center. To the average mind it explains itself.

But yesterday two women appeared at the window and one said:

"We wish to engage a birth—"

"—to Chicago," continued the other.

"Is this where we get it?" finished both together.

Mr. Sief swallowed a smile. To himself he may have remarked that he, also, could not tell a lie. But aloud he merely told them it was not.

A life which connected the Southland of today with the period of romances of more than half a century ago ended Sunday when Mrs. William H. Jones of 115 East Thirtieth street was taken by death. Funeral services will be held today at 1:30 p.m. in the chapel of Cunningham & O'Connor. Burial will be in Calvary Cemetery.

Mrs. Jones was 86 years of age when she died. She was born in Lowell, Mass., and was reared in St. Louis. She came to California in 1855, reaching the eastern shores of Panama by boat and crossing the isthmus on a burro. The trip up the West Coast was made in a windjammer of ancient type

## After All It's Marriage That Makes Everything Worth While.

BY JANE DIXON

Lead no ear, single boys and girls, single men and women, to those agencies who go about trying to arrange marriages.

The well-being of every nation, including our own America, is dependent upon the institution of marriage.

The very future of the race, life itself, is founded on legalized and religious mating.

The man who takes upon himself the prerogative of organized government and of the great high priest is not only dangerous as a partner in the business of living, but as a citizen.

Common law marriage never has and never can bring true happiness. Attempts to live outside the law of both state and of church are 99 per cent disastrous from the get-go.

Marriage performed at the altar of government and of God is respected by every right-minded, pure-hearted man and woman. Without respect we are already groveling in the dust of disaster and of defeat.

Also there is a considerable number of persons who go about boasting, "None of this marriage game for me. Single blessedness, that's the idea."

Do not be swayed, you who have sanity in your systems, by garish ravings.

Given the opportunity and the right one, bold proclamations are the first ones to climb into double harness.

You will find them listed under two heads, these self-assured sticks: for singletons—wise-cracking stunts, in love with their own voices; disgruntled gamblers with a bunch of our grapes in their gullets.

Marriage has been decreed by Nature. Nature seldom makes mistakes.

Marriage is consecrated by Christ. Any man or woman who sets himself or herself up in judgment against these two eternal, omnipotent, omniscient forces is a hopeless dabbler and a xanthous mounthead.

Give such men (?) the silence!

**WHY WHISTLE?**

"Broken Blossoms," David Griffith's motion picture epic, was witnessed by a Paris audience.

You who have had the good fortune to see this cinema version of John Burke's "Limehouse Nights" story, will find such rabid disapproval difficult to understand.

"Broken Blossoms" is a masterpiece produced by a master producer.

We dare say as much now because the play has come and gone and so there can be no charge of press loyalty.

What excuse, what reason did the volatile French folk offer for breaking forth into prolonged whistling, which is their way of "giving the raspberry?"

"We want less realism and more art," was the unanimous declaration.

The objection, it seems, was to the realistic way in which a father beats his daughter to death. A secondary consideration was the fact that the leading male part, Chinese in character, was played by an American.

Oh, in one sentence, our French patrons make a statement and deny it.

The beating incident is too real. There should be less truth and more art.

The leading character of the Chi-

nese lover is not real enough. There should be more truth and less art.

Now that the charge against the Griffith masterpiece has virtually canceled itself, may we be permitted a question?

Supposing your charges are true, Miss Paris, where are your screen productions so that our American directors may study them and learn the valuable lessons you purport to teach?

Criticism without remedy is presumptuous carping.

The incontrovertible fact that American motion pictures excel all others to such an extent that they practically control the world market, that they are favored in every civilized part of the globe, is sufficient answer to any single unfriendly claque.

If further proof of the excellence of our filming facilities and effects is necessary, we need only mention that Mr. Max Linder, peer of French comedians, and one of the funniest men known to either stage or screen in any country, is now in America making pictures.

The name of Mr. Linder's first American film is "Seven Years' Bad Luck."

Experts who have viewed working presentations say without reservation it is one of the most uproarious bits of humor in the history of the silver screen.

We hope Paris will enjoy Max Linder in America, as much as New York will applaud "Seven Years' Bad Luck."

If English picture producers or audiences are inclined to take sides against us, we will begin by mentioning Charlie Chaplin.

**LETTERS TO "THE TIMES."**

Up to the Women.

LOS ANGELES, Feb. 14.—(To the Editor of The Times.) Allow me to commend The Times upon its recent editorial entitled "Criminal Improperity." I think it is one of the finest editorials on the subject that I have ever seen. I am absolutely convinced that the men of the present generation will be no better or no worse than the womanhood of the age makes them. The hour has come when every decent woman should array herself against the prevailing modes. Unless womanhood asserts its virtue, it is only a question of time when America will be a heap of ruins. McCauley's Traveler from New Zealand stood in imagination upon the ruins of New York City and well do we recall the pathetic comment that he makes when looking over those ruins he compares America with ancient Babylon, Greece and Rome, and the inference is that America has gone the way of all antiquity, because of her pride, luxury and lust.

It is rather a startling fact that the downfall of previous civilizations have always been preceded by a revival of indecency among women.

It has seemed to be a self-evident truth that when women leave the plane of leadership in matters of virtue and morality, the result is sure deterioration and degeneration have followed in a nation's life. Unfortunately in this day, the virus has entered into the life of youth, and the girlhood of America is spring that portion of womanhood that sets forth the worst example.

There is one cure, and one only to this dangerous and fatal national condition. It lies in the mothers of the race training their daughters in

such a way that they will understand that virtue and goodness, chastity and decency bring their own rewards and that in the final analysis the manhood of America admires and respects the girl with old-fashioned ideals.

In addition to this, every woman who values real love and the glory that good men place upon the brow of womanhood, should say with Nehemiah, the ancient prophet, "So Did Not I for the Fear of God."

The foregoing represents a few random thoughts which have been provoked by the Los Angeles Times.

G. A. BRIEGLER.

**The Right Way Wrong.**

SACRAMENTO, Feb. 14.—(To the Editor of The Times.) The Sunday observance measure now before the California Legislature (Assembly Bill 561, Senate Bill 703,) affords a good example of an effort to find a proper way to do something that is improper. A similar measure containing even more exemptions than the one before the Legislature is now in the hands of a committee of the Board of Supervisors of San Francisco. At a meeting of the board January 21, which I attended, it was expected that final action upon it would be taken, but it was found necessary to hold it up for further amendment, and meanwhile petitions for more exemptions are coming before the board.

The County Attorney advised the board that the proposed Sunday-closing ordinance must not arbitrarily discriminate between different lines of business if it is to be held constitutional by the courts, but must base its discrimination upon natural grounds hence it becomes necessary for the board to show that some natural reason exists why a barber shop should be closed under penalty on Sunday and a billiard hall be allowed to remain open; why it should

## Making More Money.

Girl Who Falls in Business World Gets Big Salary by Whistling For It.

There's an old adage to the effect that "A whistling girl and a crowing hen" come to no good end—but that the saying is as faulty as its rhyme is was evidenced by the career of Florence Garrison of St. Louis, who when all else failed her, fell back upon her ability to whistle and made more money from it than she had been able to obtain from "regular" work of any other kind.

When, as a girl, Miss Garrison found that she had the rare ability to imitate the complicated whistling stunts of her boy friends, she did not have the slightest idea of turning this gift into money. She practiced it merely for her own amusement and as a means of silencing the taunts of boys who maintained that "No girl can whistle right."

Long before she reached the age of 15, Miss Garrison had all the trills and scales, all the high notes and the subtle combinations down to the point. Then she went up to her own apartment and as a means of silencing the taunts of boys who maintained that "No girl can whistle right."

Her next attempt to earn her living was as a stenographer, but here again her unconscious habit of whistling led her astray.

Within the year she made—and made again—her fortune. She couldn't help it. The love of music was in her and it insisted upon expression through the medium of whistling.

Her fortune, however, had not entirely deserted her. Her last position and the one which turned out to be the sleeping stone to "real money," was that of typist in the office of a theatrical manager.

At the moment he heard her whistle, however, he inquired if she could do it for twenty minutes at a time.

She said she could do it for an hour, if necessary, was the reply and the following week her name appeared on the program of a local vaudeville house with a salary of \$50 a week.

She has since then, through college and supporting her mother solely by whistling.

It is strange that San Francisco

be right to sell tobacco on Sunday and wrong to sell groceries. The real purpose of the ordinance, as everybody knows, is to shut off competition by Sunday selling in certain lines of business.

has fallen behind Los Angeles in growth if this proposed ordinance with its arbitrary and unjust discrimination against persons in honorable pursuits represents the spirit of its business men? If the proposed law passes the Legislature it can

only operate to the detriment of the State, for it is impossible to frame a Sunday law which does not arbitrarily discriminate against some honest person's business, or religion, or both.

# fruit growing

The total farm value of the fruit, olives and nuts raised in this state last year was over two hundred and forty-one million dollars (\$241,000,000.00) according to estimates made from percentages offered by the Bureau of Crops and Markets.

To aid in the movement of this tremendous production the Bank of Italy financed the various fruit industries to the extent of over \$59,000,000.00.

With a statewide branch banking system covering the fourteen leading fruit counties of California, this institution is in a position to "back up" the growers, packers and canners in a practical, substantial way.

**Daylight on INCOME TAX PROBLEMS!**

A multitude of new decisions and regulations have been promulgated by the Treasury Department during the year 1920, and some very important decisions are now pending, any of which may have a decided effect upon you.

Profits from the sale of real or personal property sold on the installment plan may now be reported in accordance with the actual cash received.

A recent decision by the District Court of the United States, District of Connecticut, held that an increase in the value of capital assets, when realized by sale, by one not a trader or dealer therein, is not income, and hence is not taxable as income.

This decision has not been affirmed by the United States Supreme Court and is therefore not binding upon the Treasury Department as yet. However, the taxpayer should protect himself by paying the tax on such a profit, under protest.

Another very important decision now pending will affect the method of reporting community income in California.

Our Tax Service Department is kept thoroughly informed of these new decisions and regulations, and is able to furnish the most efficient service obtainable at very moderate fees.

**MRS. W. F. BAKER**, of Milwaukie, Oregon, who says she has been restored to perfect health by Tanlac after having suffered for twenty years. Her statement is remarkable.

"For the last twenty years I have suffered from stomach trouble in its worst form. I was in misery all the time. If I took a drink of coffee or milk or even water, it would cause belching and gas. In fact, absolutely nothing would digest in my stomach. I always had an awful burning sensation in the pit of my stomach. I believe I have taken almost a wagon load of soda for stomach trouble. I would have to take it night and day. Gas would build me up so badly I couldn't fasten my clothes. At times my heart would palpitate and flutter so badly I would nearly smother and I would have to gasp for breath. In fact, I thought I had heart trouble."

"I was very fond of cheese and the least bite would throw me right into spasms. I was also very fond of onions, but they would upset me terribly. My whole system was out of shape and I was also bothered with rheumatism and neuritis. Pains in my arms and other joints were almost unbearable. I had to carry one of my arms in a sling and couldn't raise it up to my head. My hands would swell up and for a long time I was in just an awful condition. My husband got me some Tanlac and said I had to take it. Well, before I finished one bottle, I found the things I would eat did not bother me so much. I kept gradually getting better and finally after taking five bottles my trouble was entirely relieved. I can now eat onions, cheese or anything I want. In fact, I am in perfect health in every way. My neuritis and rheumatism have also left me. I know that five dollars' worth of Tanlac has done me more good than a hundred dollars' worth of other medicines. I will sing the praise of Tanlac as long as I live."

The above remarkable statement was made by Mrs. W. F. Baker, whose address is Milwaukie, Oregon, R. F. N. 2.

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Stores.

### JEWELER DIES AT PASADENA.

Well-known Eastern Merchant

Missionary Tells of Life in the

Banana Peel Inflicts New Kind  
of Injury.

**PASADENA, Feb. 21.**—Col. John Shepherd, well known in the jewelry manufacturing centers of New York, Philadelphia and Chicago, where he was sometimes called the "father of the jewelry trade," died at his winter home here this afternoon.

He had been in failing health ever since his arrival last fall. Col. Shepherd was for many years an official of the Keystone Watch Company of Philadelphia. He was 76 years old and a veteran of the Civil War. He came here in the autumn, accompanied by Mrs. Shepherd, who survives him. Funeral arrangements have not been completed.

**LABRADOR MAN HEARD.**  
Dr. Wilfred T. Grenfell, medical missionary to the fishermen and fur trappers of the far places in Labrador and Newfoundland for many years, spoke twice here today of his plans for perpetuating his work. He addressed a noonday luncheon meeting of the Pasadena Chamber of Commerce this noon at the Marlborough Hotel. He addressed a large audience of wealthy eastern tourists at the Hotel Huntington. Yesterday he spoke at the Pasadena Presbyterian Church, and tomorrow is to be the guest of the Twilight Club.

**BANANA PEEL BLAMED.**  
The banana peel is blamed for another injury. This time the victim did not slip on the banana peel, it was thrust into her eye. A friend about to eat a banana, tossed the peel aside. It flew into the eye of a woman who was visiting here, and injured her right eye so severely that she was treated at the Emergency Hospital.

**NAMED BOY'S SECRETARY.**  
L. J. Parnes of Sacramento has been appointed secretary of the Pasadena Y.M.C.A. according to an announcement from the association today. He succeeds Harold Fagenstrom, who resigned on account of ill health. The Sacramento man will arrive here in a week to take up his new duties.

### SHIP CARPENTER ENDS LIFE AT THE HARBOR.

DEATH OF WIFE CAUSES CARPENTER TO BECOME TIRED OF LIVING.

**LOS ANGELES HARBOR, Feb. 21.**—J. M. Julia, aged 51, a ship carpenter, employed by the Los Angeles Shipbuilding and Dry Dock Company, ended his own life at about 5 o'clock this morning by hanging himself to the limb of a tree in front of the residence of Dr. J. Sanford Gwaltney at Sixteenth and Beacon streets.

So conclusive was the evidence that Julia had hanged himself that it was decided a coroner's inquest was not necessary to probe the man's death. He is survived by a daughter, Mary, 24, residing at 287 Sixteenth street, only a short distance from the scene of the tragedy.

The motive for the man's self-destruction was said to have been grief over the death of his wife, who passed away in Oakland two years ago. Since then he had been despondent. Several days ago he told his daughter that she must be a good girl for he believed something was going to happen to him and he would be then left alone in the world.

Arising at 4:30 o'clock this morning, Julia made his way to the tree on the bluff overlooking the harbor. Climbing the tree he made a one-inch rope fast to a stout limb, fixing a noose about his neck with the other end. His body was still warm when discovered at 5 o'clock by S. M. Kornegay, a sailor stationed on the submarine I-4, based at the outer harbor. A coroner's inquest was held today.

**PORTERVILLE, Feb. 21.**—Henry (Teabone) Dill, a local negro character, and Neavis Avena, a Mexican, were arrested and fifty gallons of mash, about ten gallons of "jacks" brandy and a home-made still were confiscated in a raid at 7 o'clock this afternoon. The raid was conducted by Sheriff Court Smith, City Marshal Isham, Constable Matson and Deputy Morris on a blind pig just outside the city limits of Porterville. Dill and Avena were found cooking the mash in the cellar. Sheriff Smith took them to Visalia, where they will be held pending a Federal trial in Fresno.

### High School Girls PUT TABOO ON SILK.

REDLANDS, Feb. 21.—The girls of Redlands High School have gone on record against silk for school wear. Not only for every-day wear, but the senior girls this week decided that they would not wear silk dresses for commencement week.

No silk, but the dresses may be of either net or some cotton wash material. That is for the graduation dress.

For baccalaureate the girls are permitted to wear blouses of silk if they so desire, but there are to be no hats worn.

The costume for senior class day will be middie with white skirts, white shoes and stockings. The girls did this of their own accord and decided that a simple and inexpensive dress was the proper thing.

## RIPE OLIVE KING FOR DAY.

Millions Distributed in Celebration; "The Times" Certificates Bring Joy.

At least 10,000,000 olives were distributed in yesterday's celebration of California "Ripe Olive Day," according to reports received from all parts of the State by J. J. Hoey, secretary of the California Olive Association.

"The co-operation on the part of the stores, restaurants, cafes and business places and organizations generally was very gratifying," said Mr. Hoey, "and will undoubtedly result in tremendous benefit to this great California industry."

In spite of the inclement weather The Times' airplane, which circled over the city at noon, dropping 10,000 certificates in the various districts, attracted much attention and as the pieces of paper floated down they were eagerly searched out by young and old. Two hundred and fifty of these certificates entitled the persons holding them to a pint can of ripe olives for each certificate brought into the office of The Times and there counterchecked. Two certificates were good for a case of forty-eight pint cans of olives.

The plane from which the gifts were dropped upon the city left the Mercury Aviation Field at 12:02, with E. L. Rimelin driving, swung across Exposition Park and

then circled over the different sections at an elevation of 1500 feet. In the vicinity of several of the schools, the floating down of the certificates brought exciting developments, as witnessed by the fact that a number of the certificates which were brought in to be honored by The Times were badly torn and some of the boys bringing them had black eyes as well.

"I saw it coming down and so it was mine by rights," said one of the youngsters at Room 3 in the Times building late yesterday afternoon as he walked in with half a certificate and accompanied by a grown person, who was with difficulty restraining another youngster who had the other half of the certificate in his hand and quantities of mud on his clothes.

"Yes, but I beat him to it and put my foot on it," retorted the other, "and he's getting your foot on it."

## HOTELS ALL HELPED.

All the leading hotels in Los Angeles, San Francisco and throughout the principal cities of the State made a feature of ripe olives on their menus, and most of them distributed them to guests in the lobbies. Likewise, many grocery stores had elaborate window and counter displays of olives, with the result that sales of olives for the day broke all previous records. Commercial organizations in many communities added to the influence of the day, which had been set aside by Gov. Stephens as "Ripe Olive Day" by sending out literature on olives and by stressing the importance of the industry in other ways.

The Owl Drug Company gave away more than 40,000 cans of olives on a special offer by which every 50-cent purchase carried with it a can of ripe olives.

A special celebration was held at Sylmar, where the largest olive grove in the world, comprising 2000 acres and 100,000 trees, is located. This grove, containing some of the oldest and finest olive trees in the State, is just twenty-five miles from Los Angeles.

Certificates for olives will be redeemed as brought in to The Times office until tomorrow at 5 o'clock.

## SEES NEW BAPTISM OF BLOOD.

Bishop Predicts World Conflict; Also Discusses Japanese Issue.

"Japan has no right to demand for her citizens in California, or in any other part of this country, rights and privileges which the Japanese government denies to our citizens in Japan," said Bishop R. J. Cooke of Seattle, in the course of an address before the meeting of Methodist ministers of Southern California yesterday morning in the German Methodist Church.

"We have not yet had our bath of blood, but all indications point to the fact that the world is moving rapidly toward another and a greater conflict," he continued. "The only thing that can prevent such a clash is for the nations to abandon the old methods and the old modes of thought. There must come a rebirth, or a baptism of blood for our people and for all the peoples of the world."

Bishop Cooke is delivering a series of lectures throughout this week at the University Methodist Church on the subject "The Silence of St. Paul." In these discourses he deals particularly with the evidence bearing on the question of the virgin birth, and also discusses certain other crucial questions which have been raised by the new rationalism. "The church should stop discussing soup kitchens and get down to something worth while. Doctrinal subjects are as vital today as they ever were. We must know the difference between socialism and socialism," said Bishop Cooke last evening in the first of a series of lectures being given under the auspices of the University of Southern California on the topic, "The Silence of St. Paul on the Virgin Birth." The lectures, which are free to the public, are being given in the University Methodist Church and will be continued each evening during the week. This evening he will speak on "The Primitive Beliefs of the Church."

A question of what constitutes an able-bodied man was raised by Judge Summerfield's court yesterday. Attorney W. E. Ladd, for Mrs. Thelma E. Johnson, who was granted an injunction of divorce from her husband, charged that Mr. Johnson had failed to pay \$5 a week support of their child for months, and she wanted him held for contempt.

Johnson contended that he was a wage-earner, and that he was in the hospital while serving in the army, and that his sole income was a small allowance from the government.

Ladd charged that Mr. Johnson had not at night and had called a woman friend at the Merritt Hotel in Ocean Park.

"I expect to prove," he said, "that he is a man who is not a woman and a man at night, he can support his child."

"I think we are going to win at that point," remarked Ladd. "A man who is not a man, but a woman, is a man who is not a man, but a woman."

"I expect to prove," he said, "that he is a man who is not a woman and a man at night, he can support his child."

"I think we are going to win at that point," remarked Ladd. "A man who is not a man, but a woman, is a man who is not a man, but a woman."

Mrs. Thelma E. Johnson.

What constitutes a man's duty? The case was continued until next Monday afternoon. Mr. Johnson produced an affidavit made by himself in which he stated he discovered Mr. Johnson in a room of the hotel and that Mr. Johnson's companion was a woman. Mr. Johnson contended that this woman was a friend of his from Salt Lake City, a nurse, caring for a Utah couple. He declared he was perfectly willing to be examined by a physician.

**Watts Hereafter to be Branch of Local Postoffice.**

Beginning with March 1, Watts will become a branch of the Los Angeles postoffice, and its existence as a separate office will terminate. Under this arrangement the people of that place will be served with the office at Watts will be no carrier service in Watts.

A superintendent at the local office will be placed in charge of the Watts service at the main office, and though the office at Watts will be maintained as usual, all deliveries will be from the Los Angeles office. This will mean an improvement in the mail service for Watts, something for which the business men and others have been striving for a long time.

### Two Great Men

February marks the birthdays of America's two greatest men—Lincoln and Washington.

Without its great men, no nation could ever become great. With all our American genius, initiative, industry, and wealth of natural resources, this country would never have risen to pre-eminence without the leadership of its Washingtons and Lincolns.

Leadership makes its impress on progress wherever it is encountered—in nations, in industries, in every activity of man.

In the Guaranty Bank, leadership has found its part, carrying it through thirty years of steady progress. It has grown in size, but larger still in the completeness and variety of banking services provided for its patrons.

Today it stands as one of the city's strongest financial institutions, prepared to render every service expected of a modern bank for trust company.

## HEARST AGENTS TRY PULL-BACK.

Bullock's Initiative Move Premature, They Say.

Might Have Forced Immense Expense on Taxpayers.

Grudge Issue to Get Place on Ballot in May.

John P. Steele filed two initiative petitions yesterday with City Clerk Rhonda, as part of Hearst's campaign against Bullock's, and a few minutes after the petitions had been accepted, Hearst agents hurried in and breathlessly asked if the petitions might be withdrawn, as their filing of them was premature. The Hearst men were told that the petitions had been stamped as officially received and their withdrawal was not in order.

The Hearst forces had become alarmed over the discovery of a provision in the city charter that gave the members of the City Council the power to "forthwith" call a special election to present to the voters the ordinance asked for in the petitions—the proposed measure revoking the permit for the connecting structure built over St. Vincent's Place between the Hill street and Broadway stores of Bullock's in 1917, and the second petition asking for the revocation of the permit for the connecting structure now being built over St. Vincent's Place.

If the Council should be some kind of protection against insult of ladies who pass along the sidewalks minding their own business. "Outraged taxpayers of Los Angeles, come and sign this petition and stop this big steal."

A respectable appearing lady was passing when she was solicited to put her name to the paper. She quietly replied that she did not wish to. At this the big fellow demanded her reason for not signing. The lady answered that she did not consider it was necessary and the young fellow in a sneering voice continued: "Now, you're afraid you'll hurt your credit at Bullock's."

The lady, with indignation, replied: "I didn't expect to be insulted by you. At this the ruffian started toward her in a threatening manner and roared: 'Get away from in front of me, you're blocking the sidewalk.' Then the lady passed on. Yours truly,

## UNITED OPENING IS THURSDAY.

Changed Date for Showing of Latest in Apparel by Downtown Stores.

Fashion facts and fancies for females observers and the occasional male—will be presented in gorgeous array at the united opening of the leading downtown stores and shops Thursday. This is a moving forward of the date by one day, the original plan having been to present Dame Fashion, Attirally arrayed for spring and summer presentation, on Friday.

The latest mode in feminine apparel will be shown in shop windows and in the inner sanctums of the stores.

## SCORES RUFFIAN WHO WORKS FOR HEARST.

SEEKER OF ANTI-BULLOCK'S SIGNATURES INSULTS WOMAN ON THE STREET.

The Times has received the following letter from a correspondent, who asks that his name be not printed:

4217 Walton avenue, LOS ANGELES, Cal. Feb. 20, 1920.

Editor Los Angeles Times: Dear Sir: Perhaps the Hearst papers have once told the truth—possibly we do need more policemen. At least, there should be some kind of protection against insult of ladies who pass along the sidewalks minding their own business. "Outraged taxpayers of Los Angeles, come and sign this petition and stop this big steal."

A respectable appearing lady was passing when she was solicited to put her name to the paper. She quietly replied that she did not wish to. At this the big fellow demanded her reason for not signing. The lady answered that she did not consider it was necessary and the young fellow in a sneering voice continued: "Now, you're afraid you'll hurt your credit at Bullock's."

## CHIEF OF POLICE IS SENT TO PRISON.

HOWEVER, HE'S FORMER ONE AND 'TWAIS IN GREECE HE WORE HIS STAR.

When Paul Pappas, confessed Greek smuggler, stood before U. S. District Judge Pledson yesterday for sentence, he said that for five years he had been a soldier in the Greek army, and that he was now a police in one of the cities of his fatherland. But this did not prevent the court from sentencing him to 15 months in the Federal penitentiary on McNeil Island.

His collaborators in the field of contraband running, Mike Pifofan and John Burns, were given, on their plea of guilty, fifteen months in the same institution and eight months in the San Bernardino County Jail, respectively.

According to the statements of the local immigration officers, Pappas has been one of the most persistent violators of the smuggling law operating on the Pacific Coast in many years. He was finally caught at San Juan Capistrano with ten contraband Chinese packed in three automobiles. The machines were confiscated and the yellow men will be deported.

## To Arrest All Who Disregard Warning Siren.

Fire apparatus and police ambulances and automobiles must be given the right of way on the city streets, and all drivers and pedestrians who fail to heed the warning siren attached to these cars will be taken into Police Court, Chief Pendegast announced yesterday.

Complaints have been made by fire department officials that automobile drivers have failed to give the apparatus the right of way and that these bugs lost in reaching fires.

Drivers of police ambulances and other machines have also complained to Chief Pendegast to the same effect.

## WITNESSES MISSING.

None of Six Appears and Charge Against Chiropractor Fails.

Following the failure of six witnesses to appear against M. Iverson, a chiropractor charged with violating the State medical law, Judge Willis yesterday dismissed the case. Bench warrants were issued for the witnesses and they will be brought into court today.

The six witnesses were called, one after another, and all failed to respond. Judge Willis called on Attorney Castelow, representing the State Medical Board, for an explanation, and the attorney stated that "it is getting increasingly hard in chiropractic cases to bring witnesses into court when they are subpoenaed."

Griffith Jones, Pacific Coast counsel for the National Chiropractor Association, appeared for the defendant.

THREE ARE BANKRUPT. Robert E. Dale of Maricopa filed a petition in bankruptcy in the United States District Court yesterday, giving his indebtedness as \$1291, and his assets, amounting to \$1180, an exempt under the law.

Peter A. McDonald, a tailor of Fresno, filed a similar petition showing his liabilities to be \$4094 and his assets \$280. James L. Origen, rancher of Calexico, owes \$14,566.66, according to a petition filed yesterday, and his assets are scheduled at \$1190.
